

I am writing to complain about this resolution you are passing. The Attorney General of Indiana has battled long and hard to stop these harassing telephone solicitors. I do not see why the FCC is attempting to diminish the work our state has accomplished to give me some solitude in my own home. I will address this with my two Senators if you attempt to change this. Dick Lugar and Evan Bayh.

The Indiana Law has improved my home life. I was receiving in the upwards of 35 to 40 calls a day including weekends. I have an 8 year old son who goes to bed at 8 PM and these idiots would call and wake him up. Time and time again I would ask them to stop calling and they did not STOP!

Our Republican Attorney General (to my surprise) acted to stop this. Now you want to bring it back. I will also address this issue with my congressman Julia Carson if you attempt to change this law. The Federal Government has no right to intrude on my life or my sons well being by changing this law in Indiana. I will do everything within my power to challenge this in the state and with my congressional delegates and sending a barrage of complaints to the White House. You may be lucky enough to have a maid or secretary screen your calls, I do not. My number is unlisted and unpublished and these low life, annoying leaches seem to find it anyway. They wont hang up when you ask. They don't take a breath during their script. I am absolutely convinced these people exist for the sole purpose of making sure my dinner is cold and no other reason then to hear themselves talk. If the administration wants to do something for the environment, help us to stop these clowns from wasting valuable oxygen. Why do you want to do this to us. STOP IT! Please! You are a Government for the people, don't annoy the people. Please don't do anything to that will diminish Indiana's Law. It is nice to go home to peace and quiet. Since I have been on the Indiana DO NOT CALL LIST, my phone only rings when it is someone I want to talk to. These annoying little mites are so foolish they scheduled an appointment to give an estimate on siding. This would not be an issue but I think the apartment complex would have been slightly upset. This has been several years ago but they are the same type of calls I use to get a year ago, before I signed up for the do not call list in Indiana. I know own my home, the American Dream. I did not realize the American Dream had even more of these annoying parasites that came with it. This is not the type of garbage I need at night. I am a Stock Broker and I live by the Indiana Do Not Call List. I think it is the best legislation to come out of this state. I think I have made my point clear on how I feel about telemarketers. Please, leave Indiana and our Laws alone. How would Michael K. Powell feel if every day I called his secretary 40 times asking to talk to him? while you are at it you might try doing something about SPAM e-mail instead of destroying a perfectly good law.

Thank you for your time.
